Power Shot Shooting System

INSERT PICS or VIDEO

PSHA'S **Power Shot Shooting System** is a unique form of shooting & stickhandling training. There is no comparable method offered anywhere in the state. By using this exclusive system, and Swedish stickhandling balls, players develop ***powerful, accurate shots, maintain puck possession longer, experience increased goal scoring, learn new maneuvers, and proper form.***

Mike Donnelly developed the **Power Shot Shooting System** while playing hockey for Michigan State University. Utilizing this system, Mike ultimately became one of ***MSU's star players***, leading his team to victory in the ***1986 NCAA Championship*** game by scoring the team's winning goal in overtime—his 59th, the standing NCAA record for most goals scored in a season. From MSU, Mike went on to a ***successful career in the NHL***, including playing for the Los Angeles Kings alongside Wayne Gretzky when they made it to the ***1993 Stanley Cup Finals***.

Today, PSHA owners, Mike Donnelly & Craig Channell, use the **Power Shot Shooting System**, and their ***combined knowledge of the NHL***, to build the greatest proficiency in their students, allowing them to compete at the highest level.

PSHA offers training options for both teams and individuals. When attending a session or clinic, players should bring: sticks, gloves, running shoes, water or sports drink. No food or pop permitted.

Location:

**Power Shot Hockey Academy
12852 Wayne Rd.
Livonia, Michigan 48150
734-838-0600**
